# WHY THIS SUMMIT MATTERS

**Security 5.0: The Future of AI-Driven Security Management** is a power-packed summit that brings together leading minds in technology, surveillance, & infrastructure to explore the transformative role of Artificial Intelligence in the security domain. From predictive threat detection and generative AI in video analytics to ethical governance and human-AI collaboration in SOCs, this event will offer practical insights, expert panels, and real-world use cases. Designed for security professionals, tech leaders, and decision-makers, the summit aims to uncover how AI is reshaping the future of secure operations across critical sectors.

- Gain deep insights into how **AI is transforming threat detection**, predictive analytics, and real-time response in security management.
- Explore **real-world applications of AI in security** through expert panels and case studies from industry leaders.
- Understand the **power of generative AI and advanced video analytics** in managing modern security operations.
- Learn how AI is enhancing **critical infrastructure protection** & reshaping the future of SOCs (Security Operations Centers).

## HOST & ORGANISER

**DOMINIC K P**

Managing Director  
Blue & Gray

Founding Member Of :  
Fire and Security Association Of India (FSAI)  
Forum Of Critical Utility Services (FOCUS)  
National Federation of Engineers  
for Electrical Safety (N F E)

With a career spanning over two decades, he has held leadership roles in various organizations, including COO positions at Orego Biz Solutions Pvt Ltd and Goldstone Technologies. His expertise encompasses resource and IT services management, requirement analysis, and vendor and team management.

# What You'll Take Away

## You'll leave the Security Summit 2025 with:

- A clear understanding of how AI is reshaping the way we detect, prevent, and respond to threats in real time.
- Hands-on insights into using video analytics and generative AI to enhance security operations across sectors.
- Practical strategies for blending human intuition with AI precision in Security Operations Centers (SOCs).
- Awareness of the ethical, legal, and regulatory frameworks you must consider while adopting AI in security.
- Lessons from real-world case studies that you can apply to your own security challenges.
- A deeper appreciation of how AI can improve not just safety—but also efficiency and decision-making.
- Connections with industry experts and peers who are at the forefront of AI-driven transformation.
- Confidence to start or scale your organization's AI journey with a clear roadmap and purpose.

A stylized graphic featuring the letters 'AI' in a large, bold, white font. Below the letters, the words 'ARTIFICIAL INTELLIGENCE' are written in a smaller, white, sans-serif font. The background is a dark blue gradient with a network of white lines and dots, resembling a neural network or data flow. There are also some glowing blue dots and a faint, abstract shape that looks like a head or a face in the background.

# Who's Behind This Summit

KNOWLEDGE PARTNER

Duranc Tech Services Pvt Ltd, established in 2014, is a Hyderabad-based IT services company specializing in advanced video surveillance solutions. Their flagship product, Duranc Vision, is a cloud-based platform that integrates with existing IP cameras to deliver real-time analytics and business insights. The platform is compatible with various devices and network configurations, ensuring seamless integration. It offers scalable and flexible solutions, allowing businesses to add multiple locations and cameras with ease. Security is a priority, with features like centralized monitoring and end-to-end encryption. Duranc serves diverse industries, including retail, education, healthcare, and manufacturing, providing tailored surveillance solutions. Their AI-driven video analytics enhance operational efficiency and security across sectors. With a presence in India, the USA, and Finland, Duranc has executed over 250 projects globally. Their commitment to innovation positions them as a leader in transforming surveillance systems into strategic assets.

HOSTED BY

BLUE & GRAY

Blue and Gray Management Consultancy Pvt. Ltd. is a specialized strategic marketing and business development firm focused on driving growth for organizations in the safety, electrical, infrastructure, and certification sectors. With deep industry insights and strong networks across India and the Middle East, Blue and Gray offers tailored solutions including brand establishment, event management, video production, podcast, and market representation. The firm has partnered with industry leaders, manufacturers, and institutions to help them expand their footprint, build lasting industry credibility, and connect with the right audiences through impactful campaigns and curated outreach programs.
